

SOLLAIS®

COLOR-ENHANCING TECHNOLOGIES

BRINGING TRUE COLORS TO LIFE

SOLAIS[®]

elevating the impact of color

Not all LED lighting products are created equal. Solais takes pride in offering a heightened lighting experience by providing a variety of CRIs and CCTs in conjunction with proprietary color enhancements.

Our VioLight[®] and MonoWhite[™] technologies offer a truly competitive LED replacement for the CMH-like visual crispness of white and a broader spectrum and depth of all colors.

VioLight

By enabling more of the visible spectrum of light, VioLight radiates superior color quality, enhancing colors in merchandise, making them more vibrant.

Available with:

- **X-Series** track, canopy or articulating-arm mounting heads
- **X-Series** modular downlights, recessed multiples and cylinders
- **LR-Series** lamps

MonoWhite

This exclusive color-enhancing technology intensifies contrast, brightens whites and makes colors pop by bridging the cyan color gap with higher gamut color rendering.

Available with:

- **Lucie[™]** track or canopy mounting heads
- **Stretta[™]** downlights
- **Y-Series** downlights, recessed multiples and cylinders
- **WW** linear wall wash fixtures
- **LRP- and LBR-Series** lamps

The right lighting is a creative tool for negotiating perception of an object. Our color enhancements provide texture and detail that would otherwise be overlooked. Whether they are for retail, restaurant, hotel, commercial, supermarket or museum applications, Solais' color enhancement technologies are the go-to solutions when vivid and accurate color is valued in the environment.
